"The good old days were when the police didn't hide at the side of a busy road, but took their chances in traffic like everybody else."

MORE THAN NEWS

As source of information on current matters of all kinds, you can't beat the newspapers.

For instance, the student newspaper at the University of Kansas polled political science students to learn what they considered the most valuable source of information about this year's possible presidential candidates. From the results, a "popularity index" was made.

On this index, newspapers racked up a score of 327, magazines 260, and television 150 — well under half the newspaper figure. Radio scored a scant 107 and books 49.

Newspapers provide much more than news. They are a major force for popular education and understanding.

GRASS ROOTS OPINION

"If everyone engaged in agriculture, including politicians, took the realistic view of the 'farm problem' that the cattlemen do, the problem of the farmers would not seem so insoluble."

"Of all segments of our increasingly complex economy the cattlemen have displayed the greatest grasp of the fundamental facts involved in the inimitable law of supply and demand. They want no part of governmental controls or regimentation."

"Just as compulsion in any form is repugnant to all who love freedom, so do the men who ride the range abhor the dictation of bureaucrats."

"It sounds fine to hear that the government is going to pick up the tab for us on this or that but remember this—the only money a government has comes from its people."

"Anyone who thinks that because he doesn't own real estate or his income is low that he doesn't pay taxes is just living in a fool's paradise."

"According to George Gallup, the public opinion pollster, only one U. S. family in nine has taken any steps to prepare for an all-out nuclear war; very few persons have any clear notion of what to do in such an emergency, aside from getting to the nearest shelter or to the basement of their homes. And yet, one person in three believes there is much danger from war. Finally, authorities claim that half the people who would otherwise be killed could be saved if they had proper instruction and had made provision for an emergency."

"J. Edgar Hoover, whose experiences with law enforcement and with criminals in every category, rates him as top man in the nation in that capacity—and also perhaps as top man in the Universe, says that the United States should go slow in frowning on capital punishment. There are elements in every nation that demand supreme sternness and the crimes that demand capital punishment is one."

"It is interesting to note in a time when states require inspection of almost everything from elevators and boilers to barber shops and crows, that 34 states do nothing in regard to the biggest cripple and killer of all—the automobile."

The overall quality of Russian medicine is "well below" that of the United States, according to "Today's Health" magazine. It says: "The state insists on medical services to all citizens, but it gives the physician a limited budget, insufficient laboratory personnel and equipment, and saddles him with a patient and administrative load far in excess of that which any physician can handle and still practice a high quality of medicine."

Wayne Wood Off For Fifth National Jamboree Of Boy Scouts In Colorado

EDITORS NOTE: Wayne Wood, who will leave Saturday for Colorado Springs, Colorado, to attend the fifth National Jamboree of the Boy Scouts of America, will be writing several articles for The Herald.

Wayne is Senior Patrol Leader of Boy Scout Troop 622 and recently was awarded the Life Scout Badge. He is an honor student Belle Glade High School and a member of the Community Methodist Church. He is the son of Mr. and Mrs. Guy Wood, 515 N. W. 4th St., Belle Glade.

The largest encampment of boys in the history of the free world will be held at Colorado Springs, Colo. July 22-28, when the Fifth National Jamboree of the Boy Scouts of America will assemble at the foot of Pikes Peak.

It is my good luck to be a member of the Gulf Stream Council troop which will attend the Jamboree. I will be the only Scout going from the Glades one of 35 from this district who will join with 35,000 others from all over the world.

We will leave West Palm Beach this coming Saturday at 1:00 p. m. on a special train of our own with 18 cars of boys from Florida and the Panama Canal Zone. We will also have our own private baggage car to carry our camping gear.

From West Palm Beach we go to Jacksonville where I will visit my grandparents during a day-long layover there. Our next major stop is Kansas City, Mo., where we will spend the night at the Jamboree. We will visit Truman Library at Independence, Mo., go through the Everglades, visit the Plant, visit Swope Park and attend a big league ball game.

From there we go to the Jamboree grounds at Colorado Springs for three days of pre-jamboree training. Then the day before the Jamboree begins we will visit the Air Force Academy and go through the planetarium.

As the Jamboree begins we set up our tents to withstand winds up to 75 miles per hour. The long-range weather man has predicted much rain and high winds so that we will have to use 96 feet of extra rope and tent pegs four times longer than usual.

We will cook our own meals Jamboree style, unique in its own way. Food is stored in one tent for each few states. It is carried in wagons to the individual camps just before each meal. All cooking will be done on charcoal stoves. The fire must be built and the food cooked and eaten in 45 minutes.

Incidentally, the food department will be a special one-hour television show of the highlights of the Jamboree. Taped and filmed during the Jamboree the show will be on the NBC network at 8:30 p. m. Eastern Standard time, Saturday, July 30. It will be narrated by Herb Shriner.

Service Column

Cigarette Tax Means Lotta Smoke

Florida smoked enough cigarettes during May to account for \$2,654,000 in TAX.

Miami gets \$211,900, Tampa \$170,564 and Jacksonville \$137,331 for their share of that tax; after the State general revenue fund gets \$704,283.

The Glades doesn't do so bad — Cleveland gets \$272,762, Key \$3,473, South Bay \$1,573, while Belle Glade cash a check for \$8,678.

There was a lot of smoke in and around Belle Glade during May, more than the other three Glades communities.

\$165,160 Relief Fund In County During June

Thomas E. Penick, Chairman of District 10 Welfare Board of the State Department of Public Welfare, reported that in Palm Beach County 5,130 persons were assisted in the four categories of public assistance for the month of June.

A total of 1,725 persons received Old Age Assistance in the amount of \$82,222.00, 85 persons received Aid to the Blind, totaling \$5,247.00, 813 families, representing 2,452 children, received Aid to Dependent Children in the amount of \$49,037.00, 196 persons received Aid to the Disabled in the amount of \$11,229.00.

In addition 41 children received service during the month, 153 of whom were in foster homes. The total state and local cost for these child welfare services was \$18,775.14.

There were 9 adoption petitions studied for the Circuit Court. These are children placed in homes independent of service through a licensed child placing agency, and the Welfare Board is responsible according to law to make these reports to the court.

Palm Beach County is also represented on the District 10 Welfare Board by the Rev. Paul M. Casen, Mrs. Helen R. Tedder, Mrs. Helen D. Woodard, West Palm Beach, and Mrs. Doris Sasser, Pahokee.

Uncle Dan From Democrat River

Dear Mister Editor:

My old lady was arguing last night that folks in the main is all truthful: I told her she shore has been leading a sheltered life if she believes it. I never knew a drunk man to tell the truth, and folks in love is not for lying to each other. And you couldn't believe the average fellow on a stack of Bibles that is running for public office. I'd sooner put faith in a seed catalogue or the weather forecast as one of them fellers. That takes about half the population out of circulation.

Then when you get around to see car salesmen, lawyers for the defense, fishermen, and Bug Hookum's wife, you do clean out another fourth of the population. A few folks like me and you, Mister Editor, is about all that's left. I think a heap more folks would like to be honest, if they could pick the right time for it, a time when it wouldn't cost 'em nothing. I recollect attending a revival once where everybody was getting up and confessing what sinners they was and how bad they've been, and one old sinner got up and said he'd like to confess and repent at this time but he couldn't afford to do it while the grand jury was in session. The grand jury at this time had most of the time for a heap of folks.

The fellers at the country store Saturday night was discussing the different kind of folks that brag all the time. It was decided unanimously that the worst kind is the family that's got plenty of money and is always making excuses to

keep you pore folks from feeling bad about it.

They'll tell you they just had to quit eating eggs on account of them going to 70 cent a dozen, and the next day they'll be driving around in a new Cadillac. The wife will come to church with a new pink coat and allow at how she has to sell the front door knob, the electric stove and the family tomato to pay for it. This effort to soothe the pore man's fate is worse than bragging. If a feller's got plenty of money, I don't like to see him brag about it or make excuses for it, just spend it.

There's some types of braggers that I enjoy hearing spill their stuff. I've talked to the feller that invented the hub in the doughnut, and I spent two hour one hearing a feller tell how he put the first railroad through the Texas desert. The half dozen fellers that claims to be the first American soldier to land in France in World War I is all person-kind of mine. I enjoy this kind of bragging, but deliver me from the rich folks that try to make me ferget how pore I am.

Yours truly
Uncle Dan

A group of Belle Glade residents vacationing in Western North Carolina, met at the home of Mr. and Mrs. Lee Puckett on Lake Summit, Sunday afternoon to exchange news of their homes.

Butler Family Enjoys Outing

Mr. and Mrs. L. C. Butler of Ocala Center and children, grandchildren and great-grandchildren recently had a holiday at the Lake in Camel Point. An all day outing and cookout of barbecued and fried chicken with all the trimmings was enjoyed by all.

Attending were the Butlers, Mr. and Mrs. Eugene Mobley and son, Michael, Mr. and Mrs. Salvatore and children, Patricia and Arce, Mr. and Mrs. Victor Cabildo, Mrs. Tony Bonad, Mr. and Mrs. Buck Norwood, and son, Chris, Mr. and Mrs. Dennis Singleton and Dale, Miss Myrtle Jean Singleton, visiting from Alabama and little Clarito Abelon of Washington, D. C. who is spending some time with Mrs. Cabildo. Swimming and sun bathing was enjoyed and every one had quite a day.

California Visitor Likes Fla. Fishing

Mr. and Mrs. Jack Mathewson, daughter, Mary Vi, and Mr. Mathewson's sister, Mrs. F. M. Hagmann, visiting here from Santa Monica, Calif., spent an enjoyable weekend on the coast at Casa Juan Beach.

In addition to swimming and watching turtles come in on the beach, the highlight of their stay was a fishing trip aboard the Wahoo. It was Mrs. Hagmann's first deep sea fishing trip and she was quite enthusiastic about the catch which included a dolphin and 12 bonita. Mrs. Mathewson caught the 4 ft. dolphin, the largest fish.

iced Instant Coffee For Summer Thirst
Thirst is nature's way of providing the body with needed liquids. We are more aware of thirst in summer because the body's need for liquid is greater in warm weather. Most of us like our summer drinks chilled because they are more cooling when they tinkle with ice and they certainly give us a feeling of coolness.
Since so many of us must provide cooling beverages all day, every day, all summer long, most of these should be easily made. For example, did you know that iced coffee can be made without ever heating water to make the coffee? Well, it can! We are assured by the makers of the most popular of the instant coffees that you can make delicious iced coffee by dissolving instant coffee in tap water, then adding ice.
Also, delicious instant coffee may be varied in many delightful ways — you may use cream and sugar, or whipped cream, or a sprinkle of cinnamon. Or make strong coffee and use half coffee — half milk. Or you may put a spoonful of chocolate or vanilla ice cream in each serving of iced instant coffee. These are but a few of the ways that summertime thirst may be met with much success.

Florida Christian Ministry To Migrants Sponsoring Osceola Summer Program

The Summer Recreation Program is being sponsored this year at Osceola Center by the Florida Christian Ministry to Migrants under a service program sponsored by the Church of the Brethren. The program was scheduled by the Palm Beach County Board of Instruction under Mrs. Dorothy McDonald, teacher at Osceola School but due to her illness, the program fell on the shoulders of the volunteer workers, who were merely supposed to assist the school in the program.

Under the supervision of Julian Griggs the program has been going on for three weeks and will continue until August 1. Volunteers working with the Florida Christian Ministry to Migrants helping out are Mrs. Cecilia Letherman, in charge of the nursery and superintendent of the Sunday School, Dallas Lehman, David Miller and Ger-

ry Mills. Mr. Miller is in charge of sports and other activities. At this time of year more than half of the population at Osceola leave for other fields of work so the center has about 15 to 20 enrolled this year.

The mornings, while it is cool is devoted to outdoor sports such as baseball, badminton, kick ball and football. The building in which the nursery is housed was a former recreation hall and has had additions and other improvements by the Belle Glade Housing Authority at a cost of \$7,000. The old nursery building burned. The Combination worship center and nursery is 30 by 50 ft. making a wonderful room for recreation. In this building the indoor activities are held. Arts and Crafts are taught including spatter painting wax paper pictures and plaster par figures. "Some of the creative designs by the younger children really amazed," Mr. Miller said.

The children are also painting palm tree pods to be used for rhythm instruments at school and have made signs with numbers on for the home. One felt which they accomplished was racket about six or seven feet high which they made with tin-er toys. All kinds of indoor games are participated in, including ping pong.

A trip to the dike on a nature study outing was another of the activities enjoyed.

Mr. Griggs keeps busy all the time, with problems of the migrants and assisting them in one way or another. He stated Mrs. Letherman who has had 17 years in public school teaching has tended much assistance to the public school here by giving her time and effort to special classes in remedial reading, but she will be leaving the end of July. She came last October. Most of the volunteer workers remain from ten to 22 months.

fail. A tub filled with water may be useful, too.

One or more windows can be kept open on the lee side — the side opposite from which the wind is coming — to provide some ventilation and, under certain conditions, to prevent wind damage.

If wind or flying objects make an opening on the windward side of the building, wind pressure will build up within the building. Having an opening on the lee side will allow this pressure to escape, minimizing the interior forces tending to lift the roof or push out the walls.

Only small openings are advisable as long as the windward side remains intact. But as soon as windows are broken additional openings should be provided on the lee side to help equalize the pressure.

Have a flashlight in good working condition readily available. Be careful of fire. If oil lamps or candles must be used for emergency lighting, use them carefully. In an emergency bucket of sand can be used to absorb spilled fuel or to smother a small oil fire. Better still would be a fire extinguisher of a type approved for use on flammable liquids. Be sure it is in good condition and you know how to use it.

Have extra food on hand, food that can be eaten with little or no cooking. Remember electric power failure may leave you without refrigeration.

Emergency cooking facilities should be in safe working condition. Be particularly careful with appliances in questionable condition because of long disuse. They may cause a fire.

After A Storm. Don't hinder first aid and rescue work. Unless qualified to render valuable emergency assistance, stay away from disaster areas.

If you must drive immediately after a storm, drive carefully. Watch for fallen wires and tree branches. In coastal areas or near swollen streams, beware of wash-outs and undermined pavement.

Don't touch dangling or loose power lines or electric wires. In a storm the live power lines may become entangled with metal fences, telephone and other wires. Contact, in some cases, would be fatal.

Even after water service is restored, it may be wise to boil or sterilize drinking water until otherwise advised by your local health department.

Be careful of fire at all times. Damaged communications may result in a delayed fire alarm; debris-obstructed streets can slow response of the apparatus and low water pressure can make fire fighting difficult.

Decline In Economy Reflected In Florida Unemployment

Unemployment payments to Florida's jobless increased \$598, 069 over May to a total of \$2, 017, 315 in June.

State Industrial Commission Chairman James T. Voelcke attributed the increase to layoffs in citrus canning and packing houses, and seasonal slowdown in tourist and allied businesses.

Unemployment insurance claims this June were a million, 924, 726 above the total \$1, 042, 726 paid out in June, 1959.

Voelcke credited much of the increase to a decline in construction employment and its related industries such as lumber and wood products, clay, glass, and stone. In addition, some increase in unemployment insurance was spread generally throughout the economy.

Only two offices of the Florida State Employment Service reported decreased payments for their areas in June. They were Gainesville, down \$1,709 to \$12, 166; and Lake City, down \$1,345 to \$10, 294.

Areas reporting increased payments in June above May were: Miami, up \$124,424 to \$743, 235; Winter Haven, up \$95,254 to \$157,262; Tampa, up \$54,158 to \$298,155; West Palm Beach, up \$29,377 to \$160,185; Jacksonville, up \$28,044 to \$107,117; Hollywood, up \$27,585 to \$116, 589; Winter Park, up \$21,604 to \$109,582; Ft. Pierce, up \$21, 412 to \$41,239; Lakeland, up \$20,034 to \$71,591; Ft. Lauderdale, up \$18,008 to \$109,894; St. Petersburg, up \$17,847 to \$126, 429; Cocoa, up \$17,220 to \$39, 671; Leesburg, up \$18,114 to \$29, 664; Bradenton, up \$8,508 to \$20,589; Daytona Beach, up \$8, 463 to \$2,805; Marianna, up \$8,265 to \$35,317; Belle Glade, up \$8,116 to \$17,617; Clearwater, up \$7,115 to \$44,971; Tallahassee, up \$4,949 to \$21,362; Ft. Myers, up \$4,875 to \$28,455; Sarasota, up \$4,527 to \$17,979; Melbourne, up \$4,407 to \$20,213; Palatka, up \$2,898 to \$14,824; Sanford, up \$2,003 to \$10,226; Ocala, up \$1,912 to \$13,941; Ft. before the commission, with a request that the city abandon its out-moded handling of the city insurance business by (1) dividing its automotive, general liability, fire and windstorm insurance among the five authorized agents in Belle Glade, or (2) Place the business on competitive bids.

He cited incidents of savings in other cities of \$1000 to \$2500 per year of taxpayers money by calling for bids.

Action was taken by the commission authorizing the city attorney, city manager and city clerk to meet and study this program.

Awarded contract to U. S. Pipe and Foundry of Birmingham for pipe, and to Ben F. Grabe of Orlando for valves, totalling \$18,036.66 for use of water department.

Passed resolution asking County Commission to seek action from State Road Board to four-lane the bridge and road leading north to the Glades Office Building, "The Little Court House."

The City manager was instructed to write Henry Earwood that the city will put in the line to a proposed project on Weidgott road, but he must pay the expense and it remain his property.

"Be Proud To Be An American" Says Congressman Billy Mathews

"The United States is the greatest nation in the world. I'm sick and tired of hearing people talk about what's wrong with America," Rep. D. R. Mathews, Florida congressman told a Fourth of July crowd at the Stephen Foster Memorial.

"It is time to stand up and be proud to be an American," the congressman stated. "America is great because a blessed Providence gave it unrivaled natural resources, because of its form of government and because of its people. Let's love America and take a positive attitude toward our great nation," he concluded.

Playing vs South Bay Monday in a double header, the Lake Shore Juniors won both games. The score ended with a score of 16-7 and played a shut out game with a score of 8-0.

The midges lost 6-1, the second loss of the season. Lake Shore is playing South Bay at the Lake Shore center, in a return match. Scores to be in next weeks edition.

Arts and Crafts

The fourth week of the Summer Enrichment Program finds all participants full of energy and anxious to take part in the various games and art projects offered.

This week the children at Lake Shore Center were quite active and busy, accomplishing much in arts and crafts articles such as colorful flannel comb cases, handpainted sparkled jewelry boxes, table mats, flower planters, flower vases, ashtrays, fruit baskets, hot pads, joint soap dolls, waste paper baskets, paper mache bowls, book markers and aprons.

Roller Skate Rink Draws Young Folks

With the opening last week of Skateline Roller Rink, manager Robert F. Bailey expressed his pleasure at the enthusiasm shown by the young people of the area. "They're coming in increasing numbers now," he said, and a few special parties are being arranged.

Bailey said he hopes to organize classes in physical education and make the rink a well-rounded community recreation center. "Skating, along with swimming are the best all-around exercise for toning up the body and promoting physical fitness," he said. He pointed out that one half hour of skating will burn up 250 calories.

The Skateline Roller Rink was operated by Bailey in Davitt City, Nebraska and Council Bluffs, Iowa, seasonally since 1951, and Bailey moved the rink to Florida to continue a year-round basis. In 1950 he attended the National Academy for Roller Skating Teachers in Detroit, Michigan, after operating the Round-Rink in Indianapolis, Iowa for a season. His interest in skating was first aroused as a boy when he skated on sidewalks and streets of his native city, Atlantic, Iowa. Bailey has also conducted classes in Physical Fitness for the Miami and Memphis Fire Departments.

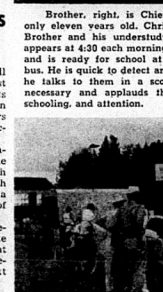

A new feature will be tried out on the rink here, when a new plastic floor covering is installed. The plastic surface promises to give more floor traction and a smoother skating surface and will be applied within the next few weeks.

Bailey served with the Coast Guards during the war. He is the father of four children, Victoria Jean 12, Robert Ray 8, Brenda Lee 7, and Jeffrey Dean 5, who are spending the summer with him here.

Clayton's Sinclair Service Is Bus Stop

Mr. and Mrs. Clayton Waters assumed the South Bay agency for the Trailway Bus lines last week and will operate from their Sinclair Service Station.

For the past several years the buses have stopped at Everglades Restaurant, and ticket sales handled by Billy Walker. Prior to that time Mrs. Waters handled ticket sales for the bus lines.

The PTA, the Legion and PB County Fair and the 4-H Clubs have often used the Three's Ranch pony ring as a main attraction at functions where money-raising for special projects was an important factor.

Ponies A Hobby

Brown's schooling and education the primary objective, we reviewed the pony project, it's usefulness as a point of interest in livestock to a growing Glade boy, as well as it's probable economic advantages.

Peculiarly, in South Florida where no winter stalls and daily feeding are necessary, the fact of ponies for children is not general. Sales to drop-ins have not eliminated the desirability of hauling stock to South Georgia auctions.

Big League Stuff? You Can Find Out

July 15 and 16 will be exciting days for the baseball players in the Ft. Lauderdale, Fla., area who think they're ready for professional baseball. It was announced today by St. Louis Cardinal Farm Director W. J. Shandor.

Red Bird Scout Mercer Harris will oversee the tryouts which will be held at Holiday Park, starting each day at 10 a. m. Any player in the 17 to 23 age bracket will be eligible. No baseball gear is needed other than a glove, shoes, and bat. The Red Birds will provide the bats, balls, and catching equipment.

No charge or fee is required to attend the tryout camp. A player signed to a contract will be refunded any expenses incurred as a result of attending the camp.

To participate in tryouts, American Legion player must have a letter of approval from either his Legion coach or Post Commander.

Jax Engineer Office Gets New Deputy Chief

Lt. Colonel Clayton A. Bird, former Missiles Project Officer at Patrick Air Force Base, Cape Canaveral, has been appointed Deputy District Engineer for the U. S. Army Engineers' Jacksonville District. He succeeds Lt. Colonel Kenneth W. Kennedy, whose present tour of duty began in July, 1957. The announcement was made by District Engineer Colonel Paul D. Probst.

Colonel Bird reported to the Jacksonville District in May, 1959. He was placed in charge of missile facilities being designed and constructed by the Corps of Engineers at Cape Canaveral.

Colonel Bird is a native of Caddo County, Oklahoma. At Texas A. & M. he studied engineering and mathematics and graduated in 1940 with a Bachelor of Science degree. Entering upon his military career in 1941 he served in the European theater from 1942 through 1945 and was awarded the Bronze Star Medal. He has had various assignments in research and development at the Continental Army Command, and in Ottawa, Canada. After serving as Post Engineer at Fort Sam Houston, Texas, he was sent to Bangkok, Thailand as Engineer for the Military Advisory Group. Bird came to Florida from the Command and General Staff College, Ft. Leavenworth, Kansas from which he was graduated.

Colonel Bird, his wife Margaret, and their three children expect to move to Jacksonville in the near future.

there's always something "Reddy" in a SUPERMARKET in your KITCHEN

For good eating... a modern ELECTRIC REFRIGERATOR-FREEZER is the ticket! Keeps foods fresher... crisper... more nutritious. Preserves practically anything - from meat loaf to pizza pie. Fruits, vegetables, meats, poultry, fish, soups, pastries, cake, ice cream - all stay fresh and delicious for months. Last-minute meals are easy with an Electric Refrigerator-Freezer. And there are always lots of ice cubes on hand.

You'll shop less often... stock up on "specials" at bargain prices... save time and money, and remember... the new frost-free models and messy defrosting forever!

Insist on an ALL-ELECTRIC refrigerator-freezer (and a Home Freezer for extra protection). Cheaper to buy, cheaper to use, and will maintain a cleaner, cooler kitchen.
